

Safety Training

The City of Melfort, in order to meet provincial OH & S regulations are working in conjunction with Saskatchewan Construction Safety Association in hosting training in January 2019.

There are four, **mandatory** courses that an employee of a company must take to get the company:

COR certified:

Safety Management (1 day)
Leadership for Safety Excellence (2 days)
Safety Auditor (2 days)
WHMIS 2015 Train the Trainer (1 day)

SECOR certified:

Safety Management (1 day)
Leadership for Safety Excellence (2 days)
Safety Auditor (2 days)
Safety Construction Orientation Training (SCOT) - online

The SCSA has agreed to come to Melfort to provide this training to the City of Melfort management and its contractors in January, 2019, at the Kerry Vickar Centre.

Safety Management and Leadership for Safety Excellence on January 8, 9, 11

Safety Auditor and WHMIS 2015 on January 15, 16, 17

We hope by bringing the training to Melfort it will make it easier for our contractors to attend and that we may continue our working relationship.

We encourage you to give the Saskatchewan Construction Safety Association a call and sign up for these upcoming courses as soon as possible.
